IN THE UNITED STATES PATENT & TRADEMARK OFFICE

Applicant: Anneli Attersand : Paper No.
Serial No.: 10/029,359 : Group Art Unit:
Filing Date: December 21, 2001 : Examiner:
For: **Protein Cluster II**

**RESPONSE TO NOTICE TO COMPLY, AMENDMENT, AND
STATEMENT REGARDING SEQUENCE LISTING IDENTITY**

Box Sequence Listing
P.O. Box 2327
Arlington, VA 22202

Dear Sir:

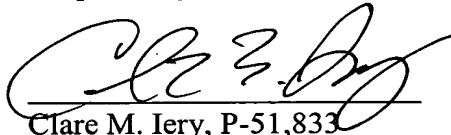

In the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures dated June 24, 2002, the Examiner indicated that the content of the computer readable form did not comply with the requirements of 37 C.F.R. 1.823, as the use of <220>-<223> is Mandatory if n's or Xaa's are present. A copy of the Notice is enclosed.

Submitted herewith is a substitute computer readable form (CRF) copy of the "Sequence Listing" and substitute paper copy as required by 37 C.F.R. 1.821(e). The Sequence Listing has been revised to specifically recite that the "n" at position 297 in SEQ ID NO:1 is "t", one of the originally designated definitions of "n", and accordingly that the "Xaa" at position 93 in SEQ ID NO:2 is a stop codon. Support for the amendment may be found in the originally filed Sequence Listing for SEQ ID NO:1 and SEQ ID NO:2.

Applicant states that the content of the substitute computer readable form copy is identical to the substitute paper copy of the Sequence Listing submitted herewith and include no new matter, in accordance with 37 C.F.R. 1.821(e), (f) or (g), or 1.825(b) or (d).

It is believed that the present submission represents a full and complete response to the Notice to Comply, and consideration on the merits is respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Clare M. Iery', written over a horizontal line.
